

# Introduction to Rifle Marksmanship Equipment

Mark Mebes  
SFC (Ret)

# Equipment

## The Rifle

Daisy 888 and 887  
sporter class air  
rifle

2.5 lb trigger pull

Wooden stock

Single shot

.177 caliber lead  
pellet

CO2 cylinder

Rear and front  
“peep” aperture  
sight

# Equipment

## Spotting Scope

Scope body

Focus ring

Scope stand

Don't "stretch"  
your neck to  
check your shots

# Equipment

## Shooting Sling

Used for prone and kneeling position only

Attaches to non-firing upper arm above biceps

Attach sling to arm first, then attach to rifle

# Equipment

## Glove

Heavyweight shooting glove for non-firing hand

Leather or nylon-rubber

# Equipment

## Prone Mat

Used to make the  
prone position  
more  
comfortable

Non-skid rubber  
layering

Lefthanded/right  
handed

Wear long sleeves  
when you shoot  
prone

Creedmoor Shooting Mat

# Equipment

## **Kneeling Roll**

**Supports the  
firing ankle  
while shooting  
from the  
kneeling position**

**Canvas  
construction,  
filled with foam  
beads, rice etc...**

# Equipment

## Clear Barrel Indicator (CBI)

Used to show that the action is open, and there is no pellet in the action or the barrel

Plastic Cord inserted from the action until it sticks out the end of the barrel

# Equipment

## Offhand Stand

Used to rest the rifle on between shots when shooting offhand

Adjust to shoulder height

Equipped with pellet holder

# Equipment

## Rifle Case

Used for  
traveling

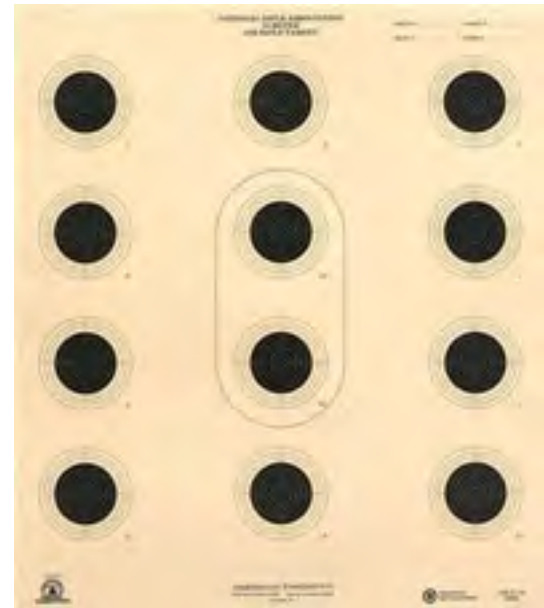

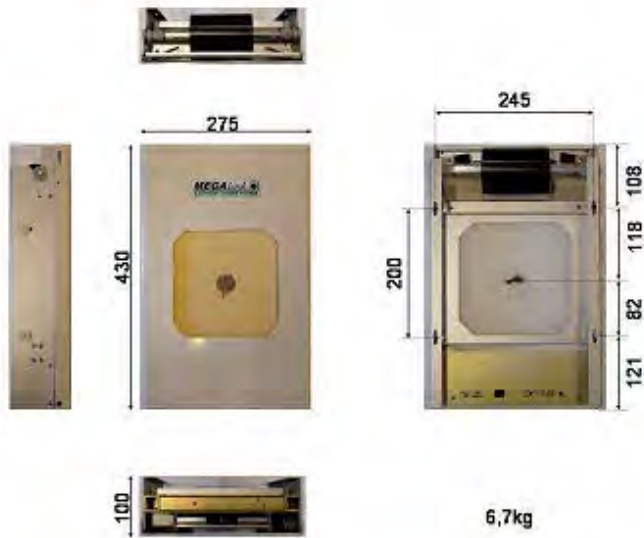

Protects the rifle  
from damage or  
getting sights  
knocked off

# Equipment

Electronic Megalink target system

10 bull-paper targets

# Equipment

## Earplugs

**Not mandatory,  
and air rifle isn't  
loud enough to  
warrant them,  
BUT some  
shooters use  
them to  
concentrate**
